

Principles in Action

We cannot heal society's brokenness unless we make principles matter in every community. As a community, these are our principles in action.

Wisdom.

Fostering Success. We give individuals in need access to professional mentors, trained with a heart of a teacher and certified to help people better manage life, regardless their circumstance, and set them on a path of success.

Integrity.

Rebuilding Trust. We work with organizations that bring communities together, particularly after a community has been harmed by injustice or violence, to unit people of all backgrounds in the spirit of safety, honesty, and fellowship.

Humility.

Reaching Potential. We give people access to programs and activities that help them discover their talents, increase employable skills, and better their consciousness in an effort to strengthen their identity and to truly achieve their potential.

Self-Control.

Reaching Potential. We give people access to programs and activities that help them discover their talents, increase employable skills, and better their consciousness in an effort to strengthen their identity and to truly achieve their potential.

Optimism.

Having Fun. We support meaningful, principally-based entertainment — events and activities that bring people together with the intent to effectively connect and bond with others in an effort to create a community of inclusion, not division or hate.

Gratitude.

Giving Thanks. We consistently give back to those that serve our communities on a daily basis; that protect our homes and families honorably by helping them whenever in need.

Love.

Providing Stability. We offer independent living, housing and services for those struggling with either physical, mental, or emotional instability that don't need hospitalization and are not criminally liable.

Justice.

Unlocking Potential. We advocate for the reform of our criminal justice system so individuals aren't "stuck" in a system unable to progress; and provide educational and employment services for those wanting and needing a second chance.

Liberty.

Exercising Rights. We fight for our self and others to have access to many American civil liberties like the right to vote, the right to liberty and security, freedom of speech, the right to bare arms, assembly, and the right to due process and a fair trial — no matter what.

Hard Work.

Increasing Employment. We offer meaningful employment to those in need; to those wanting the ability to provide for themselves and their family regardless of their circumstance.

Courage.

Empowering Self-Discovery. We help people making difficult life transitions through educational services and emotional support, helping them discover their unique qualities so they can be true to themselves and unafraid to be true to others.
